PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience building and deploying web applications using PHP (Laravel), TypeScript, JavaScript (React), Python, and Go. Holds a Bachelor's degree in Computer Science from the Arab Academy for Science, Technology & Maritime Transport (AASTMT), graduating with a 3.61 GPA and Distinction with Honors. Currently deepening expertise through ITI's Professional Training Program (Open Source Track), with a focus on clean architecture, SOLID principles, and modern backend systems.

EDUCATION

Information Technology Institute (ITI) Minya, Egypt
Professional Training Program — Open Source Applications Development Oct 2025 – Present

- ▷ *Project: **useCare** — React, Django, REST API [Repo]*
- Built a full-stack medical appointment platform enabling patients to browse doctors by specialty, book appointments, and manage their health records.
 - Developed a React frontend with role-based dashboards for admins, doctors, and patients; backed by a Django REST API with a relational data model covering users, appointments, availability, payments, and ratings.
- ▷ *Project: **HireStack** — Laravel, Vue.js, REST API [Repo]*
- Developed a full-stack recruitment platform connecting employers and job seekers, with job posting, application tracking, and candidate management features.
 - Built a Laravel REST API backend and a Vue.js frontend, following MVC architecture and RESTful design principles.

Arab Academy for Science, Technology & Maritime Transport – South Valley Aswan, Egypt
Bachelor of Computer Science Oct 2021 – Jul 2025
Cumulative GPA: 3.61/4.00 | **Distinction with Honors**

- ▷ *Graduation Project: **AI-Driven Post-Harvest Orange Sorting System** — Python, TensorFlow, OpenCV, Raspberry Pi*
- Designed and trained a YOLO + ResNet50 pipeline to classify oranges by quality, achieving **99.7% accuracy**.
 - Integrated a six-DoF robotic arm for real-time automated sorting, reducing post-harvest losses.
 - Deployed the full inference stack on a Raspberry Pi with live video capture, model inference, and hardware actuation.

EXPERIENCE

Pickalbatros Dana Beach Resort Hurghada, Egypt
IT Support & Network Engineer Sep 2025 – Oct 2025

- Managed network infrastructure, Active Directory services, and connectivity across property domains.
- Diagnosed and resolved hardware faults, routing issues, and software errors to minimize operational downtime.

Freelance Nov 2024

- **E-Library Platform**
Back End
 - Architected a full-stack digital library from database design to responsive frontend. Implemented secure book storage, full-text search, and role-based borrowing tracking.

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, C, TypeScript, JavaScript (ESM), PHP, SQL, Go.
- **Scripting Languages:** Bash, HTML5/CSS3.
- **Backend:** Node.js (Express/NestJS), Django, Laravel.
- **Frontend:** React, Vue.js, Tailwind CSS v4, Bootstrap.
- **AI & ML:** TensorFlow, Keras, OpenCV, NumPy, YOLO, LLM Integration (Gemini/OpenAI API).
- **Databases & Caching:** PostgreSQL, MySQL, MongoDB, SQLite, SQL Server, Redis.
- **Architecture & DevOps:** SOLID, Docker, Linux (Fedora/Ubuntu), Nginx, Git/GitHub.

EXTRACURRICULAR ACTIVITIES

Google Developer Student Clubs (GDSC) AASTMT – Aswan, Egypt
Core Team — Web Development Oct 2024 – Jul 2025

- Conducted workshops on modern web development for **50+ participants**.
